From: Commander in Chief Pacific
To: Director, Defense Intelligence Agency
Subj: National Intelligence Survey (NIS) Program (U)
Ref: (a) DIA ltr S-1255/AP-1M of 27 Mar 64

1. The re-oriented National Intelligence Survey production program outlined in reference (a) appears to represent a significant improvement over former NIS coverage. The availability of more timely basic intelligence is encouraging.
2. The General Survey concept also has received favorable response from appropriate members of the CINCPAC Staff assuming, of course, that the document will be supplemented frequently. In this regard, it is recommended that the General Survey be disseminated in loose-leaf format rather than in bound design.
